

We're caregivers, leaders, educators.  
We're Einstein Nurses.

Belmont Behavioral Health is known both regionally and nationally for its expertise and dedication in treating behavioral, addiction and eating disorders. As part of Einstein Healthcare Network, Belmont is a Watson Caring Science Institute affiliate, supports a nursing shared governance environment, serves as a clinical site for nursing and medical students, offers a clinical scholars program for nurses, and is currently on the Magnet® journey.

## Nurse Manager Child & Adolescent Psychiatry

The successful nurse manager candidate will be able to create an environment of trust, caring, safety and excellence in patient care; identify, lead or support process and operational improvements; embrace collaborative work with interdisciplinary teams; contribute to advancing the profession of nursing; and maintain an awareness of current and future trends in psychiatry.

Requirements for this position include:

- MSN required
- 3-5 years in child/adolescent psychiatry
- Successful management experience that includes budgetary and staffing experience
